SUMMARY

Full Stack Web Developer with 4 years of experience building web applications and ERP-integrated systems using ASP.NET MVC, C#, JavaScript, jQuery, AJAX, React.js, and SQL Server. Experienced in REST API integration, responsive UI development, and Odoo and SAP Business One connectivity.

SKILLS

Frontend:	React.js, JavaScript(ES6), HTML(HTML 5), CSS(SCSS), Bootstrap, jQuery, AJAX, Axios
React:	React Hooks, Context API
Backend & Data:	C#, ASP.NET MVC,WPF, XAML, REST APIs, Microsoft SQL Server
ERP Integrations:	SAP Business One Service Layer, Odoo
Additional Skills:	Git

WORK EXPERIENCE

SociusInnovativeGlobalBrains

Aug 2022 - Present

Software Engineer

- Developed full-stack web applications with responsive interfaces and backend functionality using ASP.NET Core MVC, C#, JavaScript, jQuery, Bootstrap, and AJAX.
- Built and maintained multiple Odoo ERP-integrated web portals for invoice management, supplier bills, customer and product data sync using custom REST APIs.
- Integrated SAP Business One Service Layer API for real-time synchronization of invoices, business partners, and item master data in enterprise web applications.
- Created and integrated REST APIs to connect web applications with ERP data and financial operations across Odoo and SAP Business One.
- Built reusable React.js components, resolved UI bugs, and maintained hybrid web applications.
- Delivered SQL Server reports and dashboards for financial and operational use.
- Automated reconciliation and business workflows using Python Flask and Robot Framework.
- Implemented structured application logging with Serilog and secure file transfer automation using WinSCP in production web systems.
- Collaborated with cross-functional teams on ERP feature delivery, application support, and deployment across multiple client projects.

PROJECTS

SAP Web Application Integration

ASP.NET MVC, C#, SQL Server, jQuery, Bootstrap, AJAX

- Built a web portal for managing customer service workflows, AR/AP invoices and Pricelist Automation, integrated with SAP Business One via Service Layer API.

React Frontend Web Application

React.js, JavaScript, HTML, CSS

- Developed reusable React.js components, fixed UI issues, and maintained frontend features in hybrid web applications.

ERP Data Integration Software

WPF, XAML, C#, ASP.NET MVVM

- Developed desktop applications to exchange data and support ERP workflows across SAP Business One, Odoo, and external systems.

Invoice Management Web Application

ASP.NET Core MVC, C#, .NET 8, HTML, CSS, jQuery, Entity Framework Core, SQL Server, Odoo REST API

- Built a web-based invoice and supplier bill management system integrated with Odoo ERP via REST APIs, supporting full lifecycle: create, confirm, pay, cancel, and reset-to-draft.
- Developed customer, supplier, and product management modules with AJAX-powered data grids and real-time data sync.

Business Operations Web Portal

ASP.NET Core MVC, C#, .NET 8, HTML, CSS, jQuery, Entity Framework Core, SQL Server, Odoo REST API

- Developed a multi-module business portal covering clients, invoices, inventory, employees, and financial reporting, integrated with Odoo ERP via REST API.
- Built modules including Blacklist Management, Cash Count, Quarantine Lots, and System Logs with server-side filtering, pagination, and real-time AJAX interactions.

EDUCATION

Bachelor of Computer Science

2017 - 2020

Higher Secondary Studies

2015 - 2017

PRE-PROFESSIONAL EXPERIENCE

UI Developer

YUVA KERALAM - Kerala (2022) Trylogic Soft Solutions, Trivandrum

- Completed Training in UI Developer at Trylogic Soft Solutions, Trivandrum under Yuva-Keralam project provided by state government of Kerala.

ADDITIONAL INFORMATION

- Completed React.js mini-projects and personal UI experiments to strengthen front-end skills.
- Keen to transition into a dedicated React.js Frontend Developer role.
- Open to remote and hybrid opportunities focused on front-end technologies.
